VOL.
8
1958

SUBJECT INDEX*

A

ABO blood groups and gastric cancer, 342
Acetazolamide and meralluride, lack of renal response to, in dog with chronic nephritis; carbonic anhydrase inhibition, 195
Acquired tolerances and tumor viruses, 69
Adaptability, specificity, and variability of tumor viruses, 94
Adrenal status in hypertension, 587
Adrenocortical steroid therapy and chemotherapy in acute, far-advanced toxic pulmonary tuberculosis, 678
Aerosol, bronchodilator, new, effect of, on air flow dynamics of maximal voluntary cough of patients with bronchial asthma and pulmonary emphysema, 629
Afterpain, obstetrical, dextromoramide as analgesic in treatment of, 689
Age policy related to cardiac employment, 232
Air flow dynamics of maximal voluntary cough of patients with bronchial asthma and pulmonary emphysema, effect of new bronchodilator aerosol on, 629
Alimentary tract, tumors in, 128
Amphetamine as appetite depressant, evaluation of, 244
Amyotrophic lateral sclerosis in epidemiology of neurologic and myopathic disorders, 395
Analgesic, dextromoramide as, in treatment of obstetrical afterpain, 689
  efficacy of d-propoxyphene (Darvon) and meperidine (Demerol), comparison of, 645
Analyzing survival, life table method in, maximum utilization of, 699
Anemia as manifestation of neoplastic disease, 164
Anhydrase inhibition, carbonic; lack of renal response to acetazolamide and to meralluride in a dog with chronic nephritis, 195
Announcements:
  chronic congestive heart failure, symposium on, 191, 194
  neurologic disorders, symposium on, 190
  occupational medicine, symposium on, 191, 193, 726
  postgraduate courses in cerebral palsy, 726
Appetite depressant, amphetamine as, 244
Arthritis, rheumatoid, and osteoarthritis, intra-articular injections of hydrocortisone, prednisolone, and their tertiary-butylacetate derivatives in patients with, 637
Arthritis—Cont'd
  of peripheral joints, rheumatoid spondylitis without: relationship to rheumatic fever and valvular heart disease, 334
Assay and multiplication of avian tumor agents, 65
Asthma, bronchial, and pulmonary emphysema, patients with, effect of new bronchodilator aerosol on air flow dynamics of maximal voluntary cough of, 629
Atherosclerosis; degenerative cardiovascular disease in Orient, 287
Avian mesenchymal tumors, features of, 100

B

Ballistocardiographic smoking tests, variation in, in healthy young men, 202
Biochemical studies of psychotomimetic drugs, 257
Biologic research in schizophrenia, problems in, 366
Birth injuries and congenital malformations in epidemiology of neurologic and myopathic disorders, 385
Blood groups, ABO, and gastric cancer, 342
Bone and liver cancer, 127
Book Reviews:
  animal behavior, 374
  aortography: its application in urological and some other conditions, 372
  biophysical principles of electrocardiography, 720
  British medical bulletin, 723
  cerebral cortex and internal organs, 373
  chronic bronchitis, emphysema and cor pulmonale, 720
  Ciba Foundation symposium on the cerebrospinal fluid, production, circulation and absorption, 658
  dynamics of anxiety and hysteria, 375
  experimental pharmacodynamics, 721
  grow up—but don't grow old. Be your sex age! 376
  a history of public health, 658
  hormone production in endocrine tumours, 721
  der kopfschmerz. Differentialdiagnostik und therapie fur die praxis, 657
  manual of nutrition, 374
  Negroes and medicine, 725
  neuroses and their treatment, 375
  peptic ulcer and psychoanalysis, 721
  physical diagnosis, 723
  planning of rehabilitation centers, 372
  the preservation of youth. Essays on health, 656
  principles of internal medicine, 723
  principles of research in biology and medicine, 720
  regional ileitis, 719
  rehabilitation of cardiovascular patient, 376

*July, pp. 1-192; August, pp. 193-286; September, pp. 287-376; October, pp. 377-566; November, pp. 567-660; December, pp. 661-734.

Book Review—Cont'd
rehabilitation: a community challenge, 655
rehabilitation monograph XV. An evaluation of rehabilitation of patients with hemiparesis or hemiplegia due to cerebral vascular disease, 724
research and education in rheumatic diseases, 655
roots of scientific thought, 722
serologic reactions of rheumatoid arthritis, 373
tuberculosis in white and Negro children, 657
Breathing aid, patient-cycled, effect of, on ventilatory efficiency in pulmonary emphysema and poliomyelitis, 615
Bronchial asthma and pulmonary emphysema, patients with, effect of new bronchodilator aerosol on air flow dynamics of maximal voluntary cough of, 629
Bronchodilator aerosol, new, effect of, on air flow dynamics of maximal voluntary cough of patients with bronchial asthma and pulmonary emphysema, 629

C

Cancer chemotherapy, clinical investigations in, 183
program, national, 171
screening studies, reflections from, 178
etiology of, 38
gastric, ABO blood groups and, 342
general principles of progression, 7
immunologic theory of; some implications in human pathology, 123
introduction to symposium on, 1
natural history of, 2
patients, maximum utilization of life table method in analyzing survival of, 699
research, epidemiologic method in, 649 (Edit.)
symposium on, 1-192
Carbohydrate metabolism in cancer patients, 166
Carbonic anhydrase inhibition; lack of renal response to acetazolamide and to meralluride in dog with chronic nephritis, 195
Carcinogenesis, 41
chemical, 124
environmental, 45
Cardiac employment potential in urban society, 230
problem to industry, 242
Cardiacs and other disabled workers, employment policies toward, 234
Cardiovascular disease, degenerative, in Orient; atherosclerosis, 287
hypertension, 312
hiring persons with, 234
Causation of cancer, concept of, 38
Central nervous system and skeletal muscle involved by intracranial metastases, 165
Cerebrovascular disease, pathophysiology, diagnosis, and treatment of, 419
Chemical carcinogenesis, 124
Chemotherapy and adrenocortical steroid therapy in acute, far-advanced toxic pulmonary tuberculosis, 678
cancer, clinical investigations in, 183
program, national cancer, 171
screening studies in cancer, reflections from, 178
Cholesterol levels, effect of stress at examinations on, in medical students, 661
Chorionepithelioma, 134
Circulatory response to smoking, 202
Clinical course of multiple sclerosis, 472
investigations in cancer chemotherapy, 183
symptomatology of epilepsy, 450
trial of dextromoramide, 689
trials, sequential, 349
Comparison of analgesic efficacy of d-propoxyphene (Darvon) and meperidine (Demerol), 645
Congenital heart disease in successive generations, 669
malformations and birth injuries in epidemiology of neurologic and myopathic disorders, 385
Convulsions, febrile, in epilepsy, 460
Convulsive disorders in epidemiology of neurologic and myopathic disorders, 391
Cost of rehabilitation in rheumatic disease, 713
Costs of operation, increased, regarding employment of cardiacs, 240
Cough, voluntary, maximal, of patients with bronchial asthma and pulmonary emphysema, effect of new bronchodilator aerosol on air flow dynamics of, 629

D

Darvon (d-propoxyphene) and Demerol (meperidine), comparison of analgesic efficacy of, 645
Defect, interatrial septal, in successive generations, 669
Degenerative cardiovascular disease in Orient; atherosclerosis, 287
hypertension, 312
Demerol (meperidine) and Darvon (d-propoxyphene), comparison of analgesic efficacy of, 645
Depressant, appetite, amphetamine as, 244
Dextromoramide, clinical trial of, 689
Diagnosis of multiple sclerosis, 473
of myopathies, 532
of Parkinson's disease, 495
pathophysiology, and treatment of cerebrovascular diseases, 419
Dimorlin, clinical trial of, 689
Diuretic efficacy of phenothiazine derivative, U-5641-2, 694
Dose-response relationship, particular reference to, in radiation-induced leukemia in man, 113
Drugs, psychotomimetic, 253
Duchenne type muscular dystrophy, 513
Dynamics, air flow, of maximal voluntary cough of patients with bronchial asthma and pulmonary emphysema, effect of new bronchodilator aerosol on, 629

VOL 8 195

Dystrophies, muscular, polymyositis, and other myopathies, 510
Dystrophy, muscular, Duchenne type, 513
facioscapulohumeral, 513
limb-girdle, 513

E

Emphysema, pulmonary, and bronchial asthma, patients with, effect of new bronchodilator aerosol on air flow dynamics of maximal voluntary cough of, 629
and poliomyelitis, effect of patient-cycled breathing aid on ventilatory efficiency in, 615
Employment potential, cardiac, in urban society, 230
Endocrine tumors, 158
Environmental carcinogenesis, 45
Epidemiologic method in cancer research, 649 (Edit.)
Epidemiology, descriptive, of selected neurologic and myopathic disorders with particular reference to a survey in Rochester, Minnesota, 378
and statistics of multiple sclerosis, 464
Epilepsy, 448
Erythematosus, lupus, systemic, and the L.E. phenomenon, 596
Etiology of cancer, 38
of multiple sclerosis, 469
of Parkinson's disease, 489
Extracellular stimuli, 44

F

Facioscapulohumeral muscular dystrophy, 513
Febrile convulsions in epilepsy, 460
Fever, "psychogenic," incidence of, in a university hospital, 567
rheumatic, and valvular heart disease: relationship to rheumatoid spondylitis without rheumatoid arthritis of peripheral joints, 334
Financial support of national cancer chemotherapy program, 175
Flow, air, dynamics of maximal voluntary cough of patients with bronchial asthma and pulmonary emphysema, 629

G

Gastric cancer, ABO blood groups and, 342
Genetics and epidemiology, interrelationship of, in selected neurologic and myopathic disorders, 380
Glands, adrenal, structural changes in, in hypertension, 587

H

Heart disease, employment of workers with, 237
congenital, in successive generations, 669
policy regarding re-employment of persons with, 237
valvular, and rheumatic fever: relationship to rheumatoid spondylitis without rheumatoid arthritis of peripheral joints, 334
Hereditary muscular and neuromuscular disorders in epidemiology of neurologic and myopathic disorders, 405
myopathies, 512
Historical survey of tumor-virus problems, 88
History of myasthenia gravis, 536
natural, of cancer, 2
and organization of national cancer chemotherapy program, 171
Hormone dependency, 29
Hospital, university, incidence of "psychogenic" fever in, 567
Human neoplastic disease, recent studies on pathophysiologic mechanisms in, 158
pathology, some implications in; immunologic theory of cancer, 123
Hydrocortisone, prednisolone, and their tertiary-butylacetate derivaties, intra-articular injections of, in patients with rheumatoid arthritis and osteoarthritis, 637
Hypercalcemia as complication in neoplastic disease, 162
Hyperplasia, prolonged, 126
Hypertension, adrenal status in, 587
degenerative cardiovascular disease in Orient, 312
Hypertrophic osteoarthropathy; polycythemia, 162
Hypothetical clinical trial: fixed sample size, 351

I

Identification of tumor viruses, "masking" phenomenon and, 105
Immunologic theory of cancer; some implications in human pathology, 123
Incidence of "psychogenic" fever in a university hospital, 567
of Parkinson's disease, 488
Infectious diseases in epidemiology of neurologic and myopathic disorders, 412
Inherited cancer susceptibility, 130
Inhibition, carbonic anhydrase; lack of renal response to acetazolamide and to meralluride in dog with chronic nephritis, 195
Injuries, birth, and congenital malformations in epidemiology of neurologic and myopathic disorders, 385
Interaction of psychotomimetic drugs, 261
Interatrial septal defect in successive generations, 669
Intestines, small and large, immunity of, to cancer, 129
Intra-articular injections of hydrocortisone, prednisolone, and their tertiary-butylacetate derivatives in patients with rheumatoid arthritis and osteoarthritis, 637
Intracellular infectious process of virus, 96
mechanisms, 42
Intracranial and intraspinal neoplasms in epidemiology of neurologic and myopathic disorders, 400
Intraspinal and intracranial neoplasms in epidemiology of neurologic and myopathic disorders, 400

VOL. 8 1958

Introduction to symposium on cancer, 1
to symposium on neurologic diseases, 377
Ionizing radiation, 50
radiations, 125

J

Japanese survivors, incidence of leukemia among, 115
Joints, peripheral, rheumatoid spondylitis without rheumatoid arthritis of: relationship to rheumatic fever and valvular heart disease, 334

L

Latent carcinoma, 29
Lateral sclerosis, amyotrophic, epidemiology of neurologic and myopathic disorders, 395
primary, epidemiology of neurologic and myopathic disorders, 397
L.E. phenomenon and systemic lupus erythematosus, 596
Leukemia, incidence of, among Japanese survivors, 115
among cases of ankylosing spondylitis treated with x-rays, 118
radiation-induced, in man, with particular reference to dose-response relationship, 113
Life table method in analyzing survival, maximum utilization of, 699
Limb-girdle muscular dystrophy, 513
Liver and bone cancer, 127
Lung cancer, 49, 131
Lupus erythematosus, systemic, and the L.E. phenomenon, 596

M

Malformations, congenital, and birth injuries in epidemiology of neurologic and myopathic disorders, 385
Mammary neoplasia in mice, 6
tumor agent, unique features of, 102
Management of myasthenia gravis, 554
of Parkinson's disease, 501
"Masking" phenomenon and identification of tumor viruses, 105
Mechanisms, pathophysiologic, in human neoplastic disease, recent studies on, 158
Medical students, effect of stress at examinations on cholesterol levels in, 661
Mental effects—subjective changes—of psychotomimetic drugs, 262
Meperidine (Demerol) and d-propoxyphene (Darvon), comparison of analgesic efficacy of, 645
Meralluride and acetazolamide, lack of renal response to, in dog with chronic nephritis; carbonic anhydrase inhibition, 195
d-1-(3-methyl-4-morpholino-2, 2-diphenyl-butyryl) pyrrolidine, clinical trial of, 689
"Model psychoses," 256
Mouse leukemia viruses, some features of, 102
Multiple myeloma, physiologic changes in, 161
sclerosis, 464
in epidemiology of neurologic and myopathic disorders, 392
Muscular dystrophies, polymyositis, and other myopathies, 510
dystrophy, Duchenne type, 513
facioscapulohumeral, 513
limb-girdle, 513
and neuromuscular diseases, hereditary, in epidemiology of neurologic and myopathic disorders, 405
Mutagenesis, 99
Myasthenia gravis, 536
in epidemiology of neurologic and myopathic disorders, 403
Myopathic and neurologic disorders, selected, descriptive epidemiology of, with particular reference to a survey in Rochester, Minnesota, 378
Myopathies, hereditary, 512
nonhereditary, 524
other, muscular dystrophies, polymyositis, and, 510
Myotonic syndromes, 517

N

National cancer chemotherapy program, 171
Natural history of cancer, 2, 39
in man, 8
Neoplasia, conditioned, 98
course of, 24
development of, 8
Neoplasms, intracranial and intraspinal, in epidemiology of neurologic and myopathic disorders, 401
Neoplastic development, experimental analysis of, 3
disease, human, recent studies on pathophysiologic mechanisms in, 158
Nephritis, chronic, lack of renal response to acetazolamide and to meralluride in dog with; carbonic anhydrase inhibition, 195
optic, acute, (papillitis), in epidemiology of neurologic and myopathic disorders, 394
retrobulbar, acute, in epidemiology of neurologic and myopathic disorders, 394
Neurologic diseases, symposium on, 377-566
introduction to, 377
and myopathic disorders, selected, descriptive epidemiology of, with particular reference to a survey in Rochester, Minnesota, 378
Neuromuscular and muscular disorders, hereditary, in epidemiology of neurologic and myopathic disorders, 405
Neurophysiologic effects of psychotomimetic drugs, 258
Neurophysiology, pathologic, of multiple sclerosis, 466
Nonhereditary myopathies, 524
"Nonviral" tumors, 68

O

Obstetrical afterpain, dextromoramide as analgesic in treatment of, 689

VOL
8
195

Optic neuritis, acute, (papillitis), in epidemiology in neurologic and myopathic disorders, 394
Orient, degenerative cardiovascular disease in; atherosclerosis, 287
hypertension, 312
Osteoarthritis and rheumatoid arthritis, intra-articular injections of hydrocortisone, prednisolone, and their tertiary-butylacetate derivatives in patients with, 637

P

Papillitis (acute optic neuritis) in epidemiology of neurologic and myopathic disorders, 394
Parkinsonism in epidemiology of neurologic and myopathic disorders, 397
Parkinson's disease, 488
Pathogenesis of multiple sclerosis, 469
Pathology, human, some implications in, immunologic theory of cancer, 123
of multiple sclerosis, 464
of myasthenia gravis, 537
Pathophysiologic mechanisms in human neoplastic disease, recent studies on, 158
Pathophysiology, diagnosis, and treatment of cerebrovascular diseases, 419
of epilepsy, 448
of myasthenia gravis, 539
Patient-cycled breathing aid, effect of, on ventilatory efficiency in pulmonary emphysema and poliomyelitis, 615
Peripheral joints, rheumatoid spondylitis without rheumatoid arthritis of: relationship to rheumatic fever and valvular heart disease, 334
Phenomenon, L.E., and systemic lupus erythematosus, 596
Phenothiazine derivative, U-5641-2, diuretic efficacy of, 694
Physical effects, including objective changes, of psychotomimetic drugs, 270
Poliomyelitis and pulmonary emphysema, effect of patient-cycled breathing aid on ventilatory efficiency in, 615
Prednisolone, hydrocortisone, and their tertiary-butylacetate derivatives, intra-articular injections of, in patients with rheumatoid arthritis and osteoarthritis, 637
Preplacement physical examination in firms interviewed about cardiac employment, 239
Primary lateral sclerosis in epidemiology of neurologic and myopathic disorders, 397
Programs for retraining personnel and referral to rehabilitation agencies in firms interviewed about cardiac employment, 239
d-Propoxyphene (Darvon) and meperidine (Demerol), comparison of analgesic efficacy of, 645
Psychotherapy with psychotomimetic drugs, 257
Psychotomimetic drugs, 253
"Psychogenic" fever, incidence of, in a university hospital, 567
Pulmonary emphysema and bronchial asthma, patients with, effect of new bronchodilator aerosol on air flow dynamics of maximal voluntary cough of, 629
and poliomyelitis, effect of patient-cycled breathing aid on ventilatory efficiency in, 615
tuberculosis, toxic, acute, far-advanced, adrenocortical steroid therapy and chemotherapy in, 678

R

R 875, clinical trial of, 689
Radiation-induced leukemia in man, with particular reference to dose-response relationship, 113
ionizing, 50
Rehabilitation, cost of, in rheumatic disease, 713
Renal response, lack of, to acetazolamide and to meralluride in dog with chronic nephritis; carbonic anhydrase inhibition, 195
Research, biologic, in schizophrenia, problems in, 366
cancer, epidemiologic method in, 649 (Edit.)
Response, circulatory, to smoking, 202
renal, lack of, to acetazolamide and to meralluride in dog with chronic nepritis; carbonic anhydrase inhibition, 195
Retrobulbar neuritis, acute, in epidemiology of neurologic and myopathic disorders, 394
Rheumatic disease, cost of rehabilitation in, 713
fever, prevalence of, in patients with rheumatoid spondylitis without rheumatoid arthritis of peripheral joints, 336
and valvular heart disease: relationship to rheumatoid spondylitis without rheumatoid arthritis of peripheral joints, 334
Rheumatoid arthritis and osteoarthritis, intra-articular injections of hydrocortisone, prednisolone, and their tertiary-butylacetate derivatives in patients with, 637
of peripheral joints, rheumatoid spondylitis without: relationship to rheumatic fever and valvular heart disease, 334
spondylitis, prevalence of, in patients with rheumatic fever, 335
without rheumatoid arthritis of peripheral joints: relationship to rheumatic fever and valvular heart disease, 334
Rochester, Minnesota, survey in, descriptive epidemiology of selected neurologic and myopathic disorders with particular reference to, 378
Rous agent, structure of, 58

S

Schizophrenia, problems in biologic research in, 366

Sclerosis, lateral, amyotrophic, epidemiology of neurologic and myopathic disorders, 395
primary, in epidemiology of neurologic and myopathic disorders, 397
multiple, in epidemiology of neurologic and myopathic disorders, 392
Screening studies, cancer chemotherapy, reflections from, 178
Scrotum, cancer of, 47
Septal defect, interatrial, in successive generations, 669
Sequential clinical trials, 349
Sequentialization, special problems in, 360
Sequentializing hypothetical clinical trial, 355
Serum cholesterol levels, effect of stress at examinations on, in medical students, 661
SKF d-5137, clinical trial of, 689
Smoking, circulatory response to, 202
tests, ballistocardiographic, variation in, in healthy young men, 202
Spondylitis, rheumatoid, without rheumatoid arthritis of peripheral joints: relationship to rheumatic fever and valvular heart disease, 334
Specificity, variability, and adaptability of tumor viruses, 94
Status epilepticus, 460
Steroid therapy and chemotherapy, adrenocortical, in acute, far-advanced toxic pulmonary tuberculosis, 678
Stomach cancer, 129
Stress, effect of, at examinations on cholesterol levels in medical students, 661
Structural changes in adrenal glands in hypertension, 587
Successive generations, congenital heart disease in, 669
Survey in Rochester, Minnesota, descriptive epidemiology of selected neurologic and myopathic disorders with particular reference to, 378
Survival, maximum utilization of life table method in analyzing, 699
Symposium on cancer, 1-192
introduction to, 1
on neurologic diseases, 377-566
introduction to, 377
Symptomatology, clinical, of epilepsy, 450
of multiple sclerosis, 466
of myasthenia gravis, 543
of Parkinson's disease, 493
Synaptic transmission, effects of psychotomimetic substances on, 258
Syndromes, myotonic, 517
Syringobulbia and syringomyelia in epidemiology of neurologic and myopathic disorders, 402
Syringomyelia and syringobulbia in epidemiology of neurologic and myopathic disorders, 402
Systemic lupus erythematosus and the L.E. phenomenon, 596

T

Teratomas explained by immunologic theory, 131
Tertiary-butylacetate derivatives, hydrocortisone, prednisolone, and their, intra-articular injections of, in patients with rheumatoid arthritis and osteoarthritis, 637
Theory, immunologic, of cancer; some implications in human pathology, 123
Tic douloureux in epidemiology of neurologic and myopathic disorders, 402
Toxic pulmonary tuberculosis, acute, far-advanced, adrenocortical steroid therapy and chemotherapy in, 678
Transduction, 99
Transplantability, poor, of some tumors, 106
Treatment of epilepsy, 452
of multiple sclerosis, 476
pathophysiology, diagnosis, and, of cerebrovascular diseases, 419
Trials, sequential clinical, 349
Tuberculosis, pulmonary, toxic, acute, far-advanced, adrenocortical steroid therapy and chemotherapy in, 678
Tumor formation, mechanism of, 98
"immunity," critical analysis of, 136
therapeutics and immunologic theory, 134
virus problems, an appraisal of, 88
viruses, 90
Tumors, properties of, induced in tolerant turkeys, 73
and tumor viruses, 98
virus-induced, some aspects of, 58
Turkeys, tolerant, properties of tumors induced in, 73

U

U-5641-2, phenothiazine derivative, diuretic efficacy of, 694
University hospital, incidence of "psychogenic" fever in, 567
Urban society, cardiac employment potential in, 230
Urinary tract and embryonic tumors, 130
Uterine cervix, cancer of, 49

V

Valvular heart disease, prevalence of, in patients with rheumatoid spondylitis and its relationship to rheumatic fever, 337
and rheumatic fever: relationship to rheumatoid spondylitis without rheumatoid arthritis of peripheral joints, 334
Variability, adaptability, and specificity of tumor viruses, 94
Ventilatory efficiency in pulmonary emphysema and poliomyelitis, effect of patient-cycled breathing aid on, 615
Virus-induced tumors, possible, 132
some aspects of, 58
Viruses, tumor, 90
and tumors, 98
Voluntary cooperative approach in national cancer chemotherapy program, 172
cough, maximal, of patients with bronchial asthma and pulmonary emphysema effect of new bronchodilator aerosol on air flow dynamics of, 629
